

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

Job Opportunity Listing – Vacancies

March 7, 2003

The South Florida Water Management District manages water and related resources for the benefit of the public. We provide exceptional service by listening and responding to the public's concerns and needs. The key elements of our Mission are: environmental protection and enhancement, water supply, flood protection, and water quality protection.

We offer competitive salaries and an outstanding benefits package. Day Care facilities are available at our West Palm Beach facility. All new hires will be required to successfully complete a pre-placement physical examination. All positions considered safety-sensitive are subject to pre-placement drug/alcohol testing as well as a physical examination.

Interested applicants should:

- Visit us online at <http://www.sfwmd.gov> to view our current openings and to fill out an application.
- Submit your information electronically at hrjobs@sfwmd.gov.
- Fax us your information at 561-682-5100.
- Submit a resume or application to the Human Resources Division, P.O. Box 24680, or visit our office at 3301 Gun Club Road, West Palm Beach, FL 33416-4680.
- Include copies of any applicable licenses or certifications.
- Veterans requesting preference must provide the appropriate original or notarized documentation at the time of application. Please note that veterans' preference does not apply to persons applying for management positions, policy making positions, or positions requiring the person to be a member of the Florida Bar Association.
- Submit transcripts for positions requiring college degrees.

Employment in a position that requires a valid Florida Driver's License or a Commercial Driver's License (CDL) is contingent upon obtaining a standard Operator's license and presenting it within 30 days of hire. For positions requiring a CDL, the selected candidate is required to provide proof of passing the written portion of the CDL prior to the actual start date and pass the driving portion of the CDL within 60 days of hire. Failure to obtain and maintain in good standing the Operator License or CDL may result in termination from any position requiring such a license. Random drug testing is mandatory for positions requiring a CDL.

Our preferred method of receiving your application is by e-mail since we use electronic processing. Receipt of your application or resume will be acknowledged. Candidates who are selected for interviews will be contacted. Applicants with a disability who require accommodation for an interview should request this in advance from Human Resources. Resumes and applications are kept active for six (6) months.

Due to the District's response role before, during, and after major storm events and in the total scope of emergency management, positions may at times be required to provide work support before, during, and after major storm events and emergency situations, such as hurricanes or other declared emergencies. Applicants who have relative(s) employed by the District may not be employed in a position over which the relative has been delegated the authority to appoint, employ, promote, advance or review subordinate employees. We are an Equal Opportunity/Affirmative Action Employer.

Persons needing accommodations in accordance with the Americans With Disabilities Act, please notify Human Resources.

ADMINISTRATIVE (SUPPORT PERSONNEL)

OTHER PROFESSIONAL

PROJECT MANAGER, LAKE OKEECHOBEE, NORTHERN DISTRICT RESTORATION, WATER RESOURCES MANAGEMENT. WORK SITE: WEST PALM BEACH. The salary range is \$48,984.00 min., \$67,142.40 mid., \$85,300.80 max. **DATE OPENED: 3/4/03.** *This is a time-limited, leased position, subject to a contract with SCI, a licensed employee leasing company. This position is due to expire 1/28/05.* Position has overall authority, responsibility and accountability for managing all activities associated with Lake Okeechobee Phosphorus Source Control Grant Program - assumes personal responsibility for project outcomes. The program has awarded grants for implementation of selected projects that will reduce the phosphorus loads from private property to Lake Okeechobee and its tributary waters. Additionally, an engineering oversight contract has been awarded to assist the project manager verify project performance. The program is administered by the District with the participation of other state and federal agencies. Projects are entering the final design and implementation phase and vary in scope and complexity. Lead and manage the implementation (design, permitting, and construction) and monitoring phases of the program to closure with the assistance of an engineering oversight contractor ensuring the successful transition of projects to the operational and performance reporting phase. Coordinate with District and other agency project managers and staff with programs in the Lake Okeechobee watershed and landowners to review and ensure against any factors that might affect project implementation. Responsible for insuring the program is administered in a manner that is consistent with other components of the Lake Okeechobee Protection Program and complies with all applicable federal and state laws and regulations. Implement a vigorous public outreach plan to achieve diversity objectives in contracting and public outreach and involvement objectives. The implementation of projects has the potential to affect the lives of all South Floridians and represent a major investment of public funds in the future of the region. Manage project implementation, monitoring, and closeout (including their elements/components), and successfully transition projects to the operational phase. Lead a multi-disciplined program oversight consultant team and manage project scope, schedule, cost, and performance goals - manage all the grant program contracts and resources to keep the projects moving forward. Provide project management skills to successfully manage restoration projects. Manage and control contracting and procurement processes (Contract Administration and Contract Closeout). Measure and report project performance on a scheduled basis during project execution to assess the results of activities compared with planned goals and to keep responsible organizations and stakeholders apprised of successes, problems, progress, and results. Identify, analyze and minimize risk over the course of the projects. Clearly communicate the goals, expectations, and work scope to grant recipients, their representatives, and engineering oversight contractor to avoid contract disputes. Coordinate and manage any conflict resolution. Achieve diversity objectives in contracting - add value to the Equity in Contracting objectives. Represent the District when dealing with local, state, federal and tribal governments, and key stakeholders providing authoritative responses to project questions and issues. Represent the District in negotiations with local, state and federal government, contractors and interested parties. Qualifications required: Bachelor's degree in Engineering or Science, Four (4) years engineering or science project experience that demonstrated substantive and successful project management results, Florida Professional Engineer (PE) License or Certification preferred, Project Management Professional (PMP) preferred, and Florida Driver's license. **Job Reference #203087**

LEGISLATIVE AFFAIRS SPECIALIST, LEGISLATIVE & EXTERNAL AFFAIRS, EXECUTIVE OFFICE. WORK SITE: WEST PALM BEACH. The salary range is \$33,238.40 min., \$46,196.80 mid., \$59,155.20 max. **DATE OPENED** 10/11/02. **DATE REPOSTED:** 3/3/03. This is a professional position involved in the communication of information to federal, state and local officials and staff, as well as Indian and tribal Councils, regarding the District's legally mandated responsibilities and mission. The position coordinates between District staff and the congressional delegation, state and local officials, and agency staff. This position will participate in the development, coordination and communication of the District's position on federal and state legislative issues. The position will provide support to the District's federal, state and local government representatives. Skills necessary for success include knowledge of local, regional, state and federal agencies; knowledge of environmental issues and the District's mission and functions. Candidate must have knowledge of project scheduling and legislative bill tracking. The candidate must also be highly organized and have experience in coordinating all aspects of large group events. Candidates must be able to work independently and have good interpersonal skills. To be considered for this position candidates should have a Bachelor's degree in communications, journalism, political science or related field and 4+ years qualifying experience in federal or state government relations or government public affairs. *Candidates who have previously applied are still under consideration.* **Job Reference #202262** changed to **# 203005**
